Clemons went to the demo for Seismic Testing held at the DOT Shed west of Clarion. There were other County Engineers and County Supervisors that attended the demo as well from surrounding counties. There was discussion on what damage it could cause to the roads as it was very clear to see where the testing was done on the gravel roads. Clemons did discuss with the group about tile under the road and the depth of tile. He would like to have the Seismic Testing team stay 250 feet away, each way, from tiles and culverts. When Clemons receives the final map and the time frame the Seismic Testing will be taking place, the board will hold an informational meeting for the public. Clemons gave an update on the Secondary Roads. There were 12 work orders completed last week. Blade operators continue to weed whip around bridges and culverts. Trucks have completed 119 of 122 segments of the 2025 dusting of gravel miles. Crews finished concrete patching last week. Motion by Rasmussen and seconded by Kiuss to adjourn the meeting

Motion carries.
